

I Want To Go To Greenland Music & Lyrics Chris James C2021

I want to go to Greenland
I love to play out in the snow
I'll build myself an igloo
Like a migrant Eskimo

Floating on an iceberg
Canoeing down a Fjord
I'd love to spot a Polar bear
While fishing with my rod

A land without a curfew
Where all the bars are open
Not a single sign of Covid
Where no angry words are spoken

Geographically part of America
Politically more European
And fish is on the menu
At the Knud Rasmussen Museum

Oh I'd love to go to Greenland
It must be just like heaven
No traffic jams to deal with
In the morning at half past seven

Middle 8

I'll find myself a woman
And bring her a bouquet of red roses
No idea what they're like in bed
But I don't mind rubbing noses

I hear her voice now calling me
I'll book my one-way trip
Just sit down on the melting icecap
And watch that water drip

I'll say goodbye to Holland
As I watch the sea levels rise
Gazing up at the Northern lights
I just can't believe my eyes

Chorus

Well I want to go to Greenland
I hope it's nice and cold
I want to go to Greenland
Before I get too old
Thank God they had their heads screwed on
When their country was almost sold

Outro

I have to go to Greenland
